PROFESSIONAL SUMMARY

Master's candidate in Business Analytics with a 4.0 GPA, experienced in data analysis, programming, business intelligence, building data pipelines. Proficient in Python, SQL, Tableau, Power BI. Demonstrated success in enhancing strategies through analytics and focus on data-driven decisions and business growth.

EDUCATION

San Francisco State University

Jan 2024 - Dec 2025

Master's in Business Analytics

[GPA-4.0/4.0]

Relevant Coursework - Programming and Applications for Data Analytics, Data Analysis for Managers, Information Systems for Management, Applied Multivariate Analysis, Seminar in Project Management

Savitribai Phule Pune University (formerly University of Pune), India

Aug 2014 - April 2017

Bachelor of Business Administration

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Databases:** MySQL, PostgreSQL, AWS Redshift
- **Software Tools:** Microsoft Excel, Tableau, Jupyter Notebook, Visual Studio code, SAP, Power BI

PROFESSIONAL EXPERIENCE

Wachira Wines - Research Project (MSBA Capstone, SFSU)

Aug 2025 - Dec 2025

Business Analyst - Graduate Researcher

- Collected and Analyzed TikTok performance data across 5k+ videos from 25 wine brands using automated data extraction tools and Python to benchmark engagement, posting strategy, and content effectiveness.
- Built predictive and ROI-focused analytics to link content variables (timing, captions, duration) with reach and revenue impact, delivering actionable recommendations for a 60-day TikTok growth pilot.

Business Development Analyst, FN Design Studio

Feb 2022 - Feb 2023

- Designed data integration pipelines, used SQL to consolidate customer data, then analyzed feedback in Python and Tableau, reducing data retrieval time by 25% and improving customer satisfaction metrics by 15%
- Conducted survey analysis projects that directly influenced and enhanced marketing strategies, boosting campaign performance by 20%

Associate Marketing Analyst, Aparna Interiors

Nov 2020 - Dec 2021

- Assessed and optimized social media KPIs using Facebook and Instagram Insights to increase client engagement on social media by 20%
- Collaborated with design teams to utilize analytics in design planning, achieving a 10% increase in sales through targeted merchandising strategies

PROJECTS

- **Crime Data Management Bureau (CDMB):** Designed a crime analytics database with 25+ relational tables, leveraging ER/EER modelling and SQL to support forensic analysis, suspect profiling, and open-case tracking.
- **YouTube Channel Performance Analysis:** Analyzed 6,000+ YouTube videos and built dashboard, increasing ad revenue by 20% and improving viewer retention by 25% with tools like Tableau.
- **Calories Burnt Prediction:** Used machine learning to predict calories burned during exercise using data from 15,000+ sessions. Created new features like BMI and tested models like Decision Trees and Gradient Boosting.
- **Aviation Accident Analysis:** Applied Python to analyse 88,863 aviation accidents (1962–2023), identifying high-risk phases, weather impacts, and severity factors to inform aviation safety strategies.
- **Data Warehousing and Analytics Using SAP DWC and SAC:** Developed and analysed integrated datasets using SAP, results visualized in SAP Analytics Cloud, correcting 10% revenue discrepancy in financial decisions.

ACHIEVEMENTS

- Received Certificate of [Decision Sciences](#)
- **President's Leadership Fellows Program (2025):** Completed a 7-week professional development program at SFSU, focusing on leadership, collaboration, and community impact. [\[Certificate\]](#)
